

Dear Whom Ever It May Concern,

My husband and I are writing in regards to some information that we recently came across. We found out that the egg industry intentionally starves "laying hens". In order to bring about a faster molt, hens are literally deprived of food, water, and light. This is unnecessary cruelty to these animals. JUN 24 49 :44

We urge you to grant the petition filed to eliminate the forced molting of hens. Until change occurs, our family intends on continuing to spread this information with our families and co-workers at the hospital. Please heavily consider your decisions concerning this issue.

Sincerely,

Dr. and Mrs. Mark Mathis
